PUPPY PRESCHOOL: Children and adults are encouraged to participate in this class for healthy puppies 10 weeks to 6 months of age who have started their vaccinations. An important first step to acclimate your puppy to becoming a well-adjusted and properly behaved family companion is early exposure to a structured socialization class, which may help prevent development of anxiety and exaggerated responses later in life. Your puppy learns proper play manners while building confidence around people and other dogs in a friendly fun style for your puppy's overall well-being. Questions on raising your puppy are discussed. ***This class is offered as part of The AKC S.T.A.R. Puppy Program.***

LEVEL #1 BASIC TRAINING*: *For first timers of all ages or as a refresher. The foundation for all training and communication with your dog. Controlled walking, come when called, sit, down, stand, including stays at all positions are taught with distractions. Focused attention, wait, off, and leave it commands are covered. These establish the basis for an appropriate relationship between a family and their dog. ***Please arrive 10 minutes prior to your first class to check in and purchase proper equipment if needed. Equipment: appropriate training collar; 6' & 15' training leads (not retractable); small treats; soft-soled shoes and paper towels.***

LEVEL #2 K-9 MANNERS/AKC GOOD CITIZEN w/Test*: *For dogs already possessing the skills covered in our BASIC DOG TRAINING class with distractions. This class places further emphasis on the skills needed to pass the AKC Canine Good Citizen test given during our last class. Further emphasis is also placed on focused attention and loose leash work. THERAPY DOGS: After 1 year of age and having achieved the CGC Certification, arrangements can be made for Therapy training and certification.

LEVEL #3 PROGRESSIVE SKILLS/RALLY For graduates with Level #1 and #2 training skills. These classes will incorporate Rally-O as a fun way to enhance training and further develop the relationship between dog and owner. With the goal of a more consistent and reliable response to all commands, we will build toward off-lead work, use hand signals and directed jumping while enhancing additional skills through a variety of structured exercises.

AGILITY: A Full range of obstacles available. For dogs already possessing the skills covered in our BASIC DOG TRAINING class including the STAY and RECALL using distractions. Both dogs and handlers participate in this active fun sport that creates excitement and confidence in the team. While training, positive enforcement, safety and encouragement is emphasized. Agility is great exercise for an active dog.

> ***BEGINNER AGILITY***: This class introduces and continues the foundation skills of how to safely negotiate all the various agility obstacles. Included obstacles are the A-frame, Dog Walk, See-Saw, Tunnels, Weave Poles, Pause Table, Tire and various Jumps.
>
> ***ADVANCED AGILITY***: Obstacle recognition, sequencing obstacles, gaining speed and accuracy are developed, while proper handling and communication techniques of the handler are introduced, as well as building teamwork with motivation, focus and direction. This class develops skills that provide a greater challenge for the active dog and handler

No refunds given for session drop-out or missed classes. Aggressive dogs need prior approval. No video cameras.

Comfortable year-round, clean, climate controlled, private facility

Make-up classes within the session are available for most classes. All Classes subject to cancellation pending interest.
